CAT6 (BLUE) FOR UTP PLUGS · CAT6/CAT7 (RED) FOR SHIELDED PLUGS · CRIMP, STRIP AND CUT

ISHCO network crimping tools terminate RJ45 (8P8C) and RJ12/RJ11 (6P) modular plugs in one squeeze. Two models are offered: the **Cat6 tool** for UTP connectors and the **Cat6/Cat7 tool** with a reinforced die for shielded S/FTP connectors.

Both tools feature a ratchet mechanism that guarantees a full, even crimp every time, a built-in round-cable stripper and a flat cable cutter. Ergonomic non-slip handles reduce hand fatigue during large installations.
